

Aditya Raj

Software Developer

A passionate Computer Science sophomore with a strong focus on front-end development and User Interface (UI) design. Proficient in HTML, CSS, and JavaScript, I'm currently expanding my skills by diving into React.js. I have a keen eye for detail, coupled with exceptional problem-solving abilities. My goal is to create intuitive and engaging user experiences through clean, efficient code.

- Computer Science and Engineering

PERSONAL PROJECTS

Calculator Application (04/2023 - Present)

- Implements standard arithmetic operations (addition, subtraction, multiplication, division) with real-time updates.
- Developed using React to ensure a smooth and responsive user experience across all devices.
- Utilizes React's component-based architecture for maintainable and scalable code.

Weather Application (01/2024 - 02/2024)

- Ensured seamless functionality across various devices, including desktops, tablets, and smartphones, using media queries and flexible layouts.
- Designed an aesthetically pleasing and user-friendly interface with a focus on ease of navigation and readability.
- Integrated visual elements such as icons and color schemes to represent different weather conditions (sunny, cloudy, rainy, etc.).

Dashboard Application (01/2024 - 02/2024)

- Displays total funds, account details, recent transactions, and financial metrics.
- Utilizes HTML5 and CSS3 to create a clean, user-friendly interface that is adaptable to various devices.
- Includes graphical representations and styled components for quick insights into financial status and trends.

ACHIEVEMENTS

Stood among top 5 teams in national level debate competition.

Successfully partnered with a teammate to make a live project which was endorsed by professors.

Served in NCC cadre for 5+ years.
